

8600 Series

Automatic Parts Washers

North America's #1 Manufacturer of High-Quality Cleaning Equipment

Conveyor Model

Rugged construction and durable finish stands up to heavy industrial use.

360-degree spray manifold for surround cleaning.

Y-Strainer in plumbing to protect nozzles (not present when filtration option is selected).

Exclusive hinged top provides easy access to cleaning area with a safety device that shuts down the entire unit when the lid is opened.

Tank slopes toward pump where capped pipe for draining is located.

Control panel includes power switch, conveyor start/stop and speed control, heater, indicator light and oil skimmer on/off switches.

5-ft long by 16-inch wide steel mesh conveyor belt (1"x1" flat wire belt mesh) with a tunnel height of up to 10-inches, large enough for most industrial cleaning needs.

Conveyor system automatically moves parts through the cleaning system at up to 8-feet per minute.

Stainless-steel oil skimmer continually removes oil from cleaning solution in reservoir.

Thermostatically-controlled heater maintains optimum cleaning temperature.

20-mesh removable debris screen prevents foreign objects and small parts from falling into sump reservoir.

Heavy-duty locking castors make moving and positioning quick and easy.

FEATURES

- Vertical Seals Pump: 5HP, 110 GPM @ 45 PSI
- 250 Lbs. Load Capacity
- 115 Gal. Sump Capacity
- 27 kW Heater
- Belt Speed: 0 to 8 ft. / min.

1-YEAR WARRANTY

on Parts; 90-Day Labor Warranty
Extends to 1-YEAR with
exclusive use of Hotsy Detergents

All standard Hotsy Automatic Parts Washers are ETL-Certified and designed for safe, aqueous cleaning.

Nothing Cleans Like A Hotsy!

8600 SERIES Conveyor Automatic Parts Washers

- 250 Lbs. Load Capacity
- 230V, 460V or 575V/3 PH
- Belt speed: 0 to 8 ft./min.
- Available in Stainless Steel

An ideal solution for manufacturing plants and other applications where heavy-duty in-line cleaning is required.

Efficient, solvent-free cleaning

Say goodbye to dirty, time-consuming manual cleaning with the Hotsy 8600 Series Conveyor Parts Washer. That means trained technicians can concentrate on more productive work. Simply put dirty parts on the conveyor. Hotsy's conveyor parts washer does the rest, delivering sparkling clean parts on the other side.

Clean better with Hotsy TubMate detergents

Hotsy offers a complete line of biodegradable TubMate detergents to give you a total parts-washing solution. TubMate detergents are specially formulated to give you the best cleaning action at temperatures as low as 110°F, which means significant savings in energy costs. TubMate detergents contain a blend of rust and corrosion inhibitors to help protect your machine and parts.

Hotsy TubMate detergents are environmentally safe to use because they contain no caustic soda, caustic potash, phenolics, chlorinated solvents or heavy metals. And since they're highly concentrated, a little goes a long way, which means additional savings.

8600 SERIES Specifications

MODEL	CONVEYOR HEIGHT	CONVEYOR WIDTH	CONVEYOR LENGTH	VOLT / PH	TOTAL AMPS	HEATER (kW)	LOAD CAP. (lbs)	SUMP CAP. (Gal)	SHIP WT (lbs)
8602	10"	16"	60"	230/3	77	27	250	115	1234
8603	10"	16"	60"	460/3	39	27	250	115	1234
8604	10"	16"	60"	575/3	31	27	250	115	1234

Also available in Stainless Steel Dimensions: 58"h x 62"w x 58"d

All 8600 Series models feature a Vertical Sealess Pump:

- 5 HP
- 110 GPM
- 45 PSI

Spend some time with a Hotsy Expert

Hotsy has more than 130 local distributors in North America, all factory-trained to properly evaluate your high-pressure cleaning needs. Over 80% of Hotsy's distributors have been supporting Hotsy systems for more than 20 years.

This seasoned network of local service professionals will ensure you get the safest, most effective and most efficient cleaning solution to your specific cleaning need.

Ask your Hotsy Rep for details on the **EXTENDED 1-YR LABOR WARRANTY** with exclusive use of Hotsy Detergents!

8600 SERIES Options & Accessories for enhanced cleaning performance

- **Adjustable Guide Rails** accommodate the steady flow of many-sized parts in an assembly line operation.
- **Filtration Systems** remove debris from the wash water thus extending the life of the cleaning solution.
- **Shop Air Blow Off** (with 12-inch air knife) introduces a drying cycle to the continuous wash process.
- **Heater Timer**, for both day and hour, automatically heats water before workers arrive for energy savings.
- **Skimmer Timer** automatically turns on oil skimmer to remove floating oils from the cleaning solution.
- **1/2" x 1/2" Flat Wire Conveyor Belt** so extra-small parts can be passed through the conveyor washer.
- **Sump Cleaner** makes easy work of suctioning the conveyor washer's tank and disposing of the sludge.

A Hotsy APW for every application

Whether the parts you're cleaning are big or small, wide or narrow, heavy or lightweight, Hotsy has an top-load, front-load, conveyor or manual parts washer to meet your parts cleaning needs.
